## NAIIA Strategic Planning Initiative

NAIIA's Strategic Planning Committee (SPC) would like to express thanks to all of our member firms and National Advisory Council members who offered input and dialogue this past year toward our strategic planning initiative. The SPC evolved in response to a need to set a course into our future through the transitions of a new Executive Director, changing officers, and our rapidly changing industry. The strategic planning followed our updates to the NAIIA mission, vision, and values.

We invite you to click the link below to read the full report, download the Strategic Planning document and learn more about areas you can serve.
